

Academic Programs at PCC Southwest Site - Durango

PCC will be offering college classes on the campus of Durango High School, in a separate wing, to **both the community and DHS students** starting Fall 2018 as part of a partnership between PCC and Durango School District 9-R to provide enhanced higher education opportunities and access.

- Full-time college students will be able to get a degree in 2 years
- Courses will be delivered face-to-face on-site, through virtual classrooms, and online
- Classes are scheduled in conjunction with the bell schedule at DHS for the most part and will be offered during the day as well as evenings
- **DHS students interested in enrolling in concurrent enrollment classes need to contact their counselor**
- PCC will also continue to offer the EMS program in the evenings through the Durango site for both traditional college-age students and concurrent enrollment students at the high school
