

Nursing Program

Transfer Policy

Nursing courses completed satisfactorily (minimum grade of "C", clinical "satisfactory" and an overall cumulative 2.8 GPA (or higher) may be considered for transfer to the PCC Nursing Program if the following criteria are met:

- A. Course(s) was eligible for graduation requirements from the transferring Nursing program.
- B. The student must be able to complete a minimum of fifteen (15) credits from PCC in order to qualify for graduation.
- C. The last nursing course completed should not be more than one year prior to the time of enrollment to the PCC Nursing Program.
- D. No last semester transfers will be accepted.
- E. Each requested transfer course must meet all requirements (course competencies, contact hours, credits for lecture/lab/clinical) based on the PCC Nursing curriculum.
- F. Complete competency testing as required requested by Admission Committee/Program Director. This may include content, math or skills testing. Testing will be at student expense. 7. The student must provide in writing a letter of intent to the Program Director and Admission Committee stating reason for transfer.
- G. The student must provide a letter of recommendation from transferring Nursing Program Director/Dean to be mailed in a sealed envelope directed to the PCC Nursing Program Director.
- H. Students are not eligible for transfer if they have failed and/or withdrawn from two (2) nursing courses in another Nursing program or twice from the same course.
- I. Any recorded academic dishonesty will prevent admission to PCC Nursing Programs.
- J. It is the student's responsibility to have all courses posted to the PCC transcript prior to acceptance.
- K. Transferability of prior credit will be individually evaluated and approved by the Director of Nursing Education Programs and must be finalized prior to registering in initial courses.

Licensed Psychiatric Technicians transferring into the nursing program after one year or greater of graduation will be required to complete competency testing for NUR 1009 and 1012. Other standardized testing may be required at the student's expense.
