Community College

WELCOME TO THE

Spring 2025 semester

TIP SHEET

Are your parking pass and student ID updated?

If you haven't done this yet, you need to! You can do this at the **Welcome and Information Center**, located on the lower level of the Student Center. Having a valid PCC student ID means you won't miss out on any ASG giveaways or events during the year.

Activate your student email account

After you get your S number, log into the **myPCC Portal** and click the Student Email link in the upper right hand corner. From there, fill in the information requested by the easy prompts and you'll be good to go!

Check your MyCourses

Be sure to check **MyCourses** for all information about your classes and student resources.

Extended hours

The following services have extended hours the first week of the semester:

- **Go!Zone:** Monday-Thursday 8 am-6 pm (virtual advising only); Friday 8 am-5 pm.
- **Info!Zone:** Jan. 21-24, 7:30 am-5 pm, located in the AB Commons.

Have you finalized your financial arrangements?

If your financial aid hasn't been processed and awarded yet, contact the Financial Aid office at **719.549.3200**.

If you are **not** receiving financial aid, you can pay your bill or make payment arrangements at **pueblocc.edu/Payment-Options**.

Download Navigate - College Simplified on your phone

Once you download the **Navigate – College Simplified** app on your cell phone or tablet, log in with your PCC email address and student ID to start checking off your college to-dos and to stay on track through graduation.

Download the myPCC app on your phone

Download the **myPCC Alert app** to keep up on all aspects of college needs and information. The app is a **one-stop shop** not only for safety information but links to all other PCC apps you need like Navigate and Friendwalk. With this app, **you will still receive emergency notifications when you do not have cell service** as long as you are connected to WiFi.
